## Progress!

Hi wisconsin.com,

Welcome to the first official [wisconsin.com](http://wisconsin.com) email Newsletter edition. We will be sending out just one newsletter a week and of course we will never sell your email address or information.

We are making great progress on the transition from our old [wisconsin.com](http://wisconsin.com) Website maintained by the Colorado company to our new Wisconsin based Website. They did a great job over the years, but we felt it was time to bring [wisconsin.com](http://wisconsin.com) back home to Wisconsin! We are excited and encouraged by the response so far.

Fall Colors have started in the northern parts of Wisconsin. It is a great time for a road trip to not only see the Fall Colors, but to also pick up pumpkins for Halloween! There are many roadside stands with a great selection of pumpkins. Fall is also when Wisconsin apples show up at roadside stands and in farmer's markets. A great road trip would be to Gays Mills Wisconsin to visit their apple orchards. If pumpkins or apples are not your style, there are many fine Wisconsin Wineries to stop at while viewing the Fall Colors.

Thank you again for signing up for our weekly [wisconsin.com](http://wisconsin.com) Newsletter. Look forward to Wisconsin event, travel, trivia, deals and more. Tell your friends and family about [wisconsin.com](http://wisconsin.com). You can always use our [contact](#) page to give us your suggestions and comments. Thanks from everyone at [wisconsin.com](http://wisconsin.com)!

Regards,  
Mark Buehl
